Stellar Instruments

Features :

- Sensor made in Switzerland
- Accuracy ±0.3%
- Data Records upto 2 years
- BLE 5.0 communication protocol
- Ultra thin design

Applications :

- Cold Chain Storage
- Data Center
- Workspace, laboratories
- Residential space
- Hospitals & Restaurant

Technical Specifications

Temperature range	:	20℃~ 85℃ (-4°F~185°F) | Accuracy : ±0.3%
Humidity range	:	0%~95% RH | Accuracy : ±2%(typical)/±5%(max)
Wi-Fi	:	2.4GHz 802.11 b/gn
ProtoCol	:	Blue tooth 5.0
Wireless Range	:	150m(ideal conditions)
Data Record	:	2 Years
Power Supply	:	3 AAA battery
Operating Temperature	:	-50°C~50C(-58F~1 22F)
Operating Humidity	:	0%~95%
Product size	:	130 x 100 x 4 mm
Net Weight	:	105g
Standard accessories	:	1 x Smart Sensor, 1 x USB cable, 1 x Bracket, User Manual

Rreal-time notification alert at the instant an important change to the temperature or humidity occurs

Connect via WiFi or BLE
can monitor Ambient Temperature and Humidity via APP anywhere
