

**FEATURES**

- Micro Controller based
- Measuring Vibration Velocity True RMS
- Wide range frequency
- True RMS & PEAK measurement
- Suitable for monitoring machinery vibration  
Caused by Imbalance, Misalignment and Gear faults
- Back Light Display
- Auto Off
- Low Battery Indication
- Pocket size & Light weight
- Sealed Membrane Keypad

**TECHNICAL DATA**

- Velocity Range: 0.1 - 199.9 mm/s True RMS & Peak
- Resolution: 0.1 mm/s
- Accuracy:  $\pm$  (2% +0.1 mm/s)
- Frequency response: 10 - 1 KHz (60 - 60000) cpm
