INTRODUCTION

The Metravi MM-10 Pinless Moisture Meter is an electronic dampness indicator with a measuring process working on high frequency measurement principle.
It is used for non-destructive testing and tracing of moisture content in all kinds of building materials as well as damp distribution in walls, ceilings and floors.

Particularly suitable for pre-testing the readiness of building materials for covering, prior to CM measurements.
Ideal for measuring moisture content in wood, gypsum and cement-based materials.

FEATURES

- Quickly indicates the moisture content of materials
- Depth of penetration about 20-40 mm
- Low battery indication
- Auto Power Off
- Max/Min Function
- Measure and HOLD Function
- White Backlit LCD Display

TECHNICAL SPECIFICATIONS

Sensor Type	Metal Spheroid
Measuring Range	0 to 100
Max Resolution	1
Battery	9V battery
Dimensions	180mm x 45 mm x 35 mm
Weight	180g
